

## Pre-Call Research Checklist

Complete Preparation for Every Stage of the Sales Mastery Model

### STAGE 1: DISCOVERY PREPARATION

Before learning about their needs/operations, research:

- ☐ Facility ownership, size, and patient census
- ☐ CMS quality ratings and recent inspection results
- ☐ Current hospice partnerships (if any)
- ☐ Recent news, awards, or community involvement
- ☐ Key decision-makers and their LinkedIn profiles

### STAGE 2: CONNECTING PREPARATION

Before learning individual needs of the contact, prepare:

- ☐ Personal background of your specific contact
- ☐ Their role in the referral decision process
- ☐ Their professional challenges and goals
- ☐ Mutual connections or shared interests
- ☐ Questions about their individual perspective on patient care

### STAGE 3: GUIDING PREPARATION

Before aligning needs to features/benefits, have ready:

- ☐ Case studies relevant to their specific situation
- ☐ Data points that address their stated challenges
- ☐ Comparison of your approach vs. their current process
- ☐ ROI calculations or outcome improvements
- ☐ References from similar facilities

### STAGE 4: COMMITMENT PREPARATION

Before asking for the business, confirm:

- ☐ All decision-makers have been engaged
- ☐ Key objections have been addressed
- ☐ Implementation timeline is understood
- ☐ Contract or agreement documents ready
- ☐ Onboarding plan prepared to present

Never advance to the next stage until you have genuinely completed the current one. Rushing through stages leads to lost deals and wasted effort.
