

SPARTAN COACHING

HOSPICE SALES EXCELLENCE

Case Studies: Real Results & Success Metrics

CASE STUDY 1: SNF TRANSFORMATION (6-Month Journey)

Facility: Regional 120-bed SNF, rural setting

BASELINE (Pre-Spartan):

- Hospice referrals: 2-3 per month (out of 120 beds)
- No formal referral process (ad-hoc, dependent on individual staff)
- Physician frustration with paperwork burden
- Family resistance: "Why hospice? My parent isn't dying yet"

SPARTAN INTERVENTION:

- Trained care team on hospice identification & early referral window
- Streamlined physician certification process (2-page form, pre-filled)
- Created family education materials (framed as "comfort + presence")
- Established weekly interdisciplinary rounds to identify candidates

RESULTS (6 Months):

- ' Hospice referrals: 8-10 per month (300% increase)
- ' Average time to referral: 14 days (vs 28 days baseline)
- ' Physician satisfaction: "Process is seamless now"
- ' CMS 5-star quality rating: Improved (better appropriate care metrics)
- ' Revenue impact: +\$45K/month from appropriate care mix

CASE STUDY 2: HOSPITAL DISCHARGE OPTIMIZATION

Facility: 280-bed acute care hospital, urban medical center

CHALLENGE:

- Hospice referrals dropped to 6 per month (compliance concerns)
- Discharge planners "scared" to mention hospice (family reactions)
- 72-hour referral window often missed

SPARTAN SOLUTION:

- Deployed Spartan coach to embed in discharge planning rounds
- Trained 40+ staff on early identification framework
- Created discharge coordinator decision tree (when + how to raise hospice)
- Provided family conversation scripts & education materials

OUTCOME (3 Months):

- ' Hospice referrals: 14-16 per month
- ' 84% of referrals made within 48-hour discharge window
- ' Staff confidence: "We know exactly when/how to talk about this"
- ' Length of stay decreased 0.8 days (major financial impact)
- ' Hospital readmission rate: Down 2.3%

KEY LEARNINGS FROM SUCCESSFUL DEPLOYMENTS

1. Physician engagement is THE bottleneck. Solve it first.
2. Family education > objection handling. Prevent resistance, don't fight it.
3. Process beats willpower. Systems win. Ad-hoc loses.
4. Early identification (days, not weeks) is the game-changer.
5. Documentation is legal protection. Show compliance, not burden.
