

SPARTAN COACHING

HOSPICE SALES EXCELLENCE

Facility-Type Specific Scripts

Customized approaches for different facilities

HOSPITAL SCRIPT

Pain Point: 24-48 hour discharge windows

"Hi [Name], quick question: when a patient becomes appropriate for hospice, how many hours do you have from identification to discharge? Most hospitals tell us 24-48 hours. Does that resonate?"

Key Points:

- Identify eligible patients within 24 hours
- Faster physician certification = shorter LOS
- Real-time discharge coordination
- Reduce 30-day readmissions

SKILLED NURSING FACILITY SCRIPT

Pain Point: CMS compliance, therapy utilization

"Hi [Name], I work with SNFs on CMS scrutiny of unnecessary therapy on patients who should be on hospice. Do you have a formal process for identifying when therapy should stop and hospice should start?"

Key Points:

- Identify therapy vs hospice-appropriate patients
- Reduce unnecessary therapy costs
- Better CMS compliance and ratings
- Physician collaboration framework

ASSISTED LIVING SCRIPT

Pain Point: Family hesitancy, end-of-life conversations

"Hi [Name], we work with communities that want to honor residents' wishes at end of life. Many families struggle with transitions—are you looking to strengthen how your team handles those conversations?"

Key Points:

- Support families in dignified conversations
 - Improve family satisfaction
 - Reduce unnecessary hospitalizations
 - Partnership approach
-
